

## The Party to Save the World!

All social problems are ultimately caused by one, our incorrect relationship with nature. Nature is extremely generous, but government allows some people to charge everyone else to use land (to live, to sleep). This makes 99% of us into slaves.

**Adam Smith:** "As soon as land becomes private property, the landlord demands a share of almost the entire produce."

**Karl Marx:** "Monopoly of land is the basis of monopoly in capital."

**Joseph E. Stiglitz:** "Rent is the secret tax the wealthy charge the poor."

**Milton Friedman:** "The least bad tax is ... on the unimproved value of land, ..."

Taxing individuals for living, working and interacting is wrong. Government must protect our freedom, not infringe on it. We should tax the use of resource (location value), not the amount of wealth people produce. That is basic logic, fairness and efficiency.

**Thomas Jefferson:** "Wherever, in any country, there are idle lands and unemployed poor, it is clear that the laws of property have been so far extended as to violate natural right."

**Tom Paine:** "Men did not make the earth. ... Every proprietor owes to the community, a ground rent for the land which he holds."

**Winston Churchill:** "I have made speeches by the yard on the subject of land value taxation and you know what a supporter I am of that policy"

**Pliny the elder:** "Latifundia ruined Rome."

**Leo Tolstoy:** "Solving the land question means the solving of all social questions."

Only an economically free society can create the most desirable social conditions. But paid-stream media (news and school) is a tool of landed interests, they are not our protectors.

**The Land Tax Ad Fund** is, therefore, for internet and outdoor ads to promote land value tax. The oldest idea in economics still makes perfect sense, so once enough people are talking about it at the same time, we can vote ourselves free despite the landed establishment!
